**Wait Paint.**

There are painters and waiters. Which am I going to do? Paint or wait?

Which is better?

How much am I worth with my property waiting? How much if I paint? Will my house be worth more or less if I paint?

Say it costs \$2.25 a gallon. Devote—I wouldn't paint any other—and \$3 or \$4 more for putting it on. That's \$50 or \$60 a 10-gallon job.

The money is gone. Is it in the house? Is it all in the house?

Suppose I was selling; what should I get for that house fresh painted and what should I get for it needing paint?

I wonder why men paint before selling!

DEVOE Holloway Bros. sell it.

One of the prettiest weddings that ever took place here was when Mr. H. Gerdes and Miss Josiephina Rolph were joined in wedlock Oct. 18, at 4 P. M. at the Lutheran church. Mr. Muennink took the happy couple in his car to the church and, under the strains of Jesus take the Lead, sung and played by the young ladies, accompanied by the ringing of both church bells, the bride and groom and best man Mr. E. ## Mexican Killed.

While Juan Guerra and Sarabio Samanyage, two Mexican boys about grown, were hunting on one of the Odum farms about four miles south of Hondo Sunday afternoon, October 19th, Samanyage was accidentally killed. It seems the boys had shot some birds and while hunting for them in the brush Guerra's gun, a 16-gauge shot gun, was discharged from some accidental cause and the load struck Samanyage's head about four inches back of the left ear and ranged upward coming out at the top of his head, causing instant death. Sheriff J. F. Bader and Justice of the Peace A. M. Lamm went out to the scene of the tragedy and held an inquest, returning a verdict in accordance with the foregoing facts.

## D. A. R. Musical.

A musical event of charming interest was given under the auspices of the D. A. R.'s Monday evening at the home of Mrs. I. W. Richardson on Hill street. The splendid colonial residence lent itself most admirably for the bright occasion.

The spacious parlors were very lovely with a wealth of beautiful fall flowers and foliage plants. A most artistic background for the group of gifted artists who presented one of the most delightful programs, which was preceded by Miss Mildred Rutherford in one of her well chosen and very timely talks.

Mrs. H. H. Rothe sang most exquisitely several beautiful numbers accompanied by Mrs. Richardson on the piano.

Mrs. John Morris was heard with the usual pleasure and appreciation that her violin selections always elicit. She was accompanied by Miss Desha of Lucy Cobb. Both, she and Mrs. Richardson, being gifted pianists.

Mrs. Rothe is indeed an acquisition to the social and musical contingent of our city and is being most cordially greeted and appreciated as one of the most gifted of young women, possessing a voice of remarkable purity, beauty and cultivation.

The large parlor audience pronounced the evening perfect in every detail. —Athens (Ga.) Banner.

## No Ifs or Ands or Buts About a Hudson Six 54

YOU seldom need to shift gears. The motor flexibility takes care of the different speed and road conditions.

To ride in a six is a delight. The car starts as smoothly as a yacht. It develops speed smoothly and steadily. It glides over the road. It gives the sensation of flying. It rides like constant coasting.

It will run smoothly—on high gear—at the pace of a man's walk. This is ideal in congested traffic. It will "pick up" almost instantly to the speed of an express train.

This without changing a gear—without touching a lever. Just a slight pressure of the foot on the accelerator pedal is required.

There is no jerkiness. There is no annoying and tiring vibration.

## See These New Features

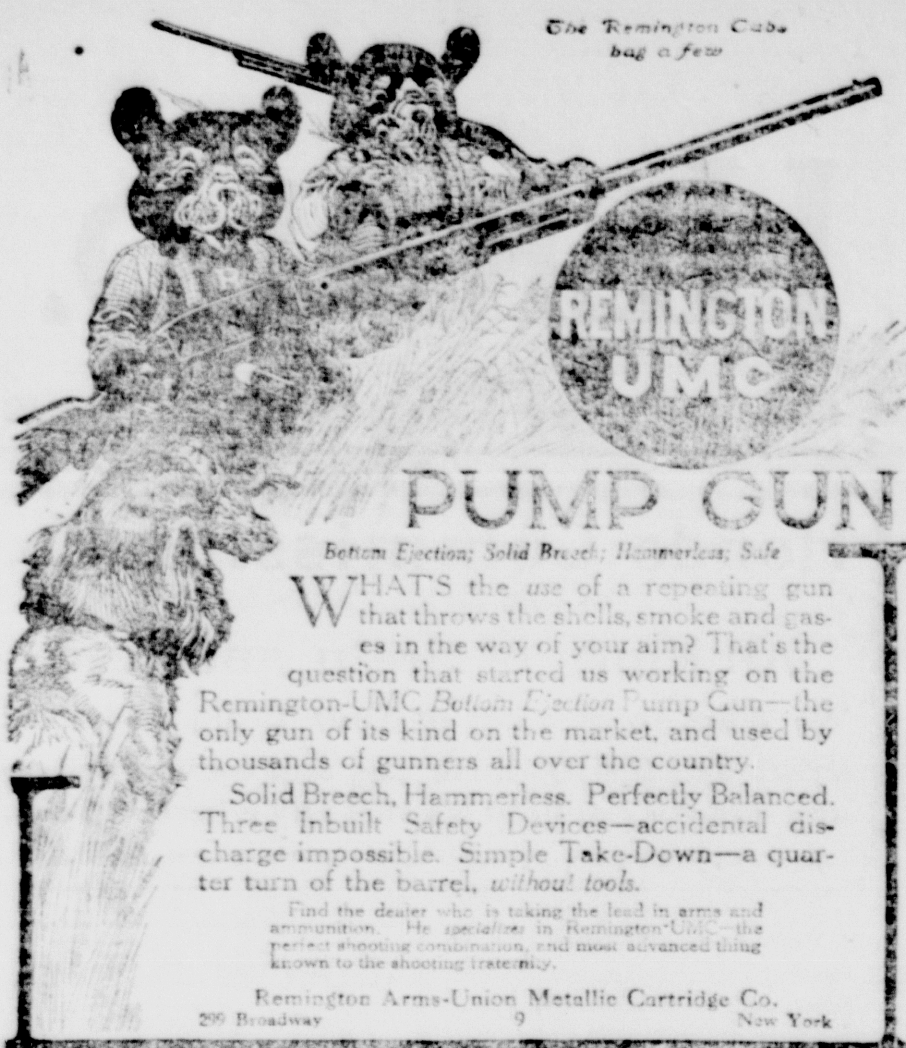

THE HUDSON Six 54 has the true streamline body that comfortably seats four, five, six or seven passengers—four-speed transmission—left-side drive—right-hand (center) control—new, fast type Delco electric cranking and lighting system, patented—entrance to driver's seat from both sides of car—gasoline tank in dash—new "dimming" electric headlights—135-inch wheel base.

Come, see for yourself the true Streamline Body and examine the smoothness and flexibility of a real six-cylinder car.

### A WAYSIDE GRAVE.

O'er upland journey wound its way  
Past hills that wore the green of May.  
The dogwood starred the shadowy copse  
The light breeze rocked the pine tree tops  
Far off we saw the village spires  
And fluttering smoke of household fires  
But here of voice or tool no sound  
Fell on the cloistered hush profound.  
Sudden I drew my bridle rein,  
Dim, shining out from moss and stain.  
Alone amid a fallow field  
And half by briar and weed concealed.  
I saw a rough stone cross that bore  
One little dear home name, no more.  
Some heart had ached, some house had known  
The desolate hunger for its own.  
When hollowed out this narrow grave,  
They laid, whom love had died to save.  
But could not, one whose name had been  
To her own people "Josephine."  
A ruined chimney and the bloom  
Of a pale purple lilac plume  
Close by, and this small wayside cross  
Told all, the tale of love and loss.  
While near and far the fragrant day  
Was golden glimmering with May.

## A Carelessly Treated Cold

is the source of most sickness because drugged pills, syrups and alcoholic mixtures are uncertain and unsafe.

Scott's Emulsion has been relied upon by physicians for forty years as the safe and sensible remedy to suppress the cold and build up the enfeebled forces to avert throat and lung troubles.

Don't tolerate alcoholic substitutes, but insist on the Genuine Scott's Emulsion. One bottle usually lasts longer than a cold. Every druggist has it.

ALL the world looks bright when things are coming our way.

The faster we advance towards an object the faster it appears to come our way, as all have observed who ever traveled beyond a snail's gallop. There is a lesson in this for all of us who would have our lives bright, filled with hope and forgetful of its disappointments. Let us fix our purpose on some worthy object, some attainment that if reached will make ourselves and the world better therefor, and go after it with all our strength. Then will our aspirations rise up, as it were, and greet us in a blessed reality, and each achievement be a stepping stone to greater ones.

It is better to have the reputation of paying your honest debts than of being a leader in society. All the glory of social life cannot compensate for the ignominy of getting through on false pretenses. The wretchedness of a man or woman who, for the sake of display, is haunted day and night with creditors, who almost fear to walk the streets, is pitiable. There must be an end to him and a bitter one. Character is worth more than clothes, and independence than the social swim. It may not cut so great a sweep or attract as much attention but it will last longer and bring them much reward in the end.—Ex.

## I TOOK PE-RU-NA

Was Able to Sleep and Eat Again

Mrs. Mueller says: "I keep Peru-na in the house constantly. When I am not feeling well I take a few doses. It always restores."

Mrs. Mueller's story of her experience with Peru-na fully explains why she always keeps Peru-na on hand. A few years ago she was very sick. The trouble seemed to be the stomach and liver. She suffered great pain. Was unable to get anything to help her. She was growing weaker and weaker. She became tired of life.

Sombody suggested that she write to the Peru-na Co. She did so. Through their advice she began to use Peru-na. In a letter from her at this time she says: "Through the use of Peru-na I have regained my health. I took only a bottle and a half when I was able to sleep and eat again and my nervousness disappeared." No wonder Mrs. Mueller keeps Peru-na in the house. Under similar circumstances Peru-na would be in every home in the land.

Any one taking Peru-na ought to have a copy of the "All or None" Peru-na Co., Columbus, Ohio. People who object to liquid medicine can now obtain Peru-na Tablets.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### A Unique Custom.

Some years ago the Vinol fraternity, of which W. H. Windrow is a member, originated the idea of having a National display week of Vinol and companion products, semi-annually.

This Vinol fraternity must be quite an extensive organization, for returned travellers tell of the wonderful window displays of Vinol which they have noticed in their travels through Canada, Cuba and as far away as South America.

W. H. Windrow is now preparing for Vinol week, which begins Oct. 27th, this year. His attractive window arrangements, and store decoration, show the same enthusiasm which they have for years put behind this meritorious Cod-Liver and Iron preparation.

Later in the season, he intends to give away a new Vinol Cook Book to his customers. Every woman interested in good cooking receipts should call and get one.

### A Gentle and Effective Laxative.

A mild, gentle and effective laxative is what people demand when suffering from constipation. Thousands swear by Dr. King's New Life Pills. 1st. 738 acres of land, known as Survey No. 1004, in the name of J. N. Berryman, described by metes and bounds as follows: Beginning at the N. E. corner of survey No. 905, Brazoria County School Lands; Thence East 2670 varas to a stake; Thence South 1560 1/2 varas to a stake; Thence West 2670 varas to a stake; Thence North 1560 1/2 varas to place of beginning.

2nd. 738 acres of Land, known as Survey No. 1005, in the name of J. N. Berryman, described by metes and bounds as follows: Beginning at the S. E. corner of survey No. 905, Brazoria County School Lands; Thence North with the East line of said Survey No. 905, 1560 1/2 varas to a stake and mound, made for the N. W. corner of this Survey; Thence East 2670 varas to a stake set for the N. E. corner of this survey; Thence South 1560 1/2 varas to a stake; Thence West 2670 varas to the place of beginning;

Said two tracts of Land lying and being situated in Medina County, Texas.

That on the said 1st day of August, A. D. 1913, the said Defendants unlawfully entered upon said premises and ejected plaintiffs therefrom and unlawfully withhold from them the possession thereof.

That plaintiff Louis Rothe's title to the above described lands is by virtue of a deed from Alvin P. Granger to F. Rothe and Bros., a firm consisting of Henry Rothe, Fritz Rothe, Louis Rothe and August Rothe, dated August 13, 1889, recorded in the Deed Records of Medina County, Texas, in Book A, No. 22, on page 24; and by deed from the said Henry Rothe and Fritz Rothe to Louis Rothe and A. C. Rothe, dated February 19th, 1897, recorded in the Deed Records of Medina County, Texas, in Book A, No. 28, on page 598, and by deed from A. C. Rothe to plaintiff Louis Rothe, dated July 14 1905, recorded in the Deed Records of Medina County Texas, in Book A, No. 37, on page 507. That the said deed from Alvin P. Granger to F. Rothe & Bros. was filed for registration in the County Clerk's office of said Medina County, on October 3rd, 1889, that said deed from Henry and Fritz Rothe to Louis and A. C. Rothe was filed for registration in said Medina County on February 23, 1897; that said deed from A. C. Rothe to Louis Rothe was filed for registration in said Medina County on July 15, 1905. That the title of plaintiff A. C. Rothe Jr. to a part of said survey No. 1005, is by virtue of a deed from Henry Rothe, A. C. Rothe, Louis Rothe and F. Rothe, dated ——— 1912, filed June 10, 1912, for registration in said Medina County, and recorded in Book A, No. 47, on pages 430 and 431, of the Deed Records of said County.

Plaintiffs further represent and allege that they have a good and perfect title to said Land and premises under and by virtue of the Statute of Limitation of (3) three years for the reason that said plaintiffs, and those under whom they claim by duly registered deeds, have had peaceable and adverse possession thereof under title or color of title for more than three years prior to the institution of this suit.

Plaintiffs further represent and allege that they have a good and perfect title to said land and premises under and by virtue of the Statute of Limitation of five (5) years for the reason that said plaintiffs and those under whom they claim, as aforesaid, have had peaceable and adverse possession of said land and premises, cultivating, using and enjoying the same and paying all taxes due thereon as the same

accrue, and claiming the title thereto under and by virtue of the above mentioned deeds of conveyance, duly filed and registered as aforesaid, for more than five years prior to the time of the institution of this suit.

Plaintiffs further represent and allege that they have a good and perfect title to the lands and premises under and by virtue of the Statute of Limitation of ten (10) years for the reason that plaintiffs, and those under whom they claim, as aforesaid, have had peaceable and adverse possession of said Land and premises, cultivating, grazing, using and enjoying the same for more than ten years prior to the time of the institution of this suit.

Plaintiffs further represent that the title or claim of the said J. N. Berryman, and the unknown heirs of the said J. N. Berryman, if any, to the above described lands, is by virtue of the patent issued by the State of Texas, to the said J. N. Berryman on July 16, 1852, being patent No. 579, vol. 9.

That the title or claim of defendant W. H. Parsons, and the unknown heirs of W. H. Parsons, is unknown; that the title of defendant, Myra W. Parsons, and the unknown heirs of Myra W. Parsons, if any, is by virtue of a deed from said defendant, W. H. Parsons, to said Myra W. Parsons, dated May 6, 1878, filed for record in Medina County, Texas, on June 27, 1879, and recorded in the deed records of said county in Book A, No. 12, on page 530; that the title or claim of defendant, Jacob Massina, and the unknown heirs of Jacob Massina, is unknown to plaintiffs; that the title or claim of defendant, A. P. Granger, and the unknown heirs of A. P. Granger, is by virtue of a deed from defendant, Jacob Massina, to the said A. P. Granger, dated March 21, 1878, filed for record in the deed records of Medina County, Texas, on June 11, 1878, and recorded in the deed records of said county in Book A, No. 11, on page 538.

Plaintiffs bring this suit for the purpose of determining the estate, interest or claim, if any, of each and all of the above named defendants, or any person or persons who may claim under them, in and to said lands and premises and that the court may adjudge and decree unto plaintiffs the said land and premises, free from any claim, title or interest of the said defendants, or any of them, and to forever settle by decree of court the title to said lands.

Wherefore, plaintiffs pray that said defendants, the names of part of whom are unknown to plaintiffs, and the residences of all are unknown to plaintiffs, be cited by publication as prescribed by the Statutes of this State, and that

upon final hearing in the case that plaintiffs have judgment of the Court, declaring and adjudicating the title to the above described lands to be in plaintiffs free from any and all claims in favor of said defendants, or any of them, and for such other and further relief, general or special, legal or equitable, to which plaintiffs may be justly entitled to.

And you will summon the said defendants to so answer the said petition by making publication of this citation in some newspaper published in Medina County, Texas, if there be any newspaper published therein, but if not, then in any newspaper published in the nearest county where a newspaper is published, once in each week for eight successive weeks previous to the return day hereof.

Herein fail not, but have you before said Court at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, August Kempf, Clerk of the District Court of Medina County, Texas.

Given under my hand and seal of said Court at its office in Hondo, this 27th day of August, A. D. 1913. Issued same day.

AGRICULTURAL LAND FOR SALE!  
Improved and Unimproved

In placing my holdings on the market, consisting of lands around Charlotte and Jourdanton, both improved and unimproved, I do so with the knowledge that these lands are most favorably situated and offer every convenience to those seeking homes. Within easy reach of every point are modern gins, well equipped schools, commodious churches, good roads lead everywhere, to nearby railroad stations and the best markets in Texas.

This property has not been offered earlier because these very necessary advantages were not to be had, but now they are a reality—nothing is left to speculation or future contingencies. Settlers now have all the advantages that can be found anywhere in a fully developed community without paying the prices that are asked in the older sections. You can have the benefit, for I am offering you the most desirable opportunity in Texas.

These lands are as good as can be had in South Texas; there are no better anywhere. Plenty of water can be obtained on any tract and shallow wells can be located at small cost furnishing an abundance of good water. The soil is fertile, there are no crop failures on these farms and no irrigation is necessary. No section of the state offers a more healthy or delightful climate, winter or summer.

## Another Warning.

I have informed my friends that the United States will not send her soldiers into Mexico and I am sure the Huerta party can not have a legal election in Mexico on Oct. 26th, as proposed by the Huerta party, and if the United States lifts the embargo on arms and ammunition and permits the Constitutionalists to get all they need, Governor Carranza, General in Chief, will go forward with his officers and soldiers to the City of Mexico and swiftly and surely run Huerta and his adherents out of Mexico. Then they will not make a separate republic as was reported by Huerta and his grafters, but there will be one republic. It will not be divided for it is one of the richest countries in the world. It has more silver and gold, it has the finest marble, and the forest is inexhaustible. It has the finest and largest mahogany and other wood. It is a fine country for raising live-stock and it is a productive land for raising bananas, oranges, lemons, peaches and other fruit, and in some portions of the north, grain and vegetables of all kinds are grown. Also coffee, sugar and tobacco are profitably raised and exported. There are some oil fields also in some parts of Mexico. The climate in some sections is delightful. With all such wonderful advantages of soil and climate the reason the people have not made better progress in their political condition is because graft is at the bottom of all the troubles in Mexico. There has never been a Republican form of Government for over fifty years because so few have been educated to possess any conception of a government for the people and by the people. All these years they have been robbed and despoiled and valuable concessions of land have been granted by the politicians in power. That caused the revolution. So you must cheer up, you poor people of Mexico, for your Commander-in-Chief, Carranza, will eventually gain independence for you, for the time will come when you will be free and independent people.

The Government must have the people educated. They must have free schools, free speech and free press, and but one God and with His will the citizens of Mexico will be able to control their Government. Then England and Germany will stay at home and not get mixed up with Uncle Sam, or I will get my air ship after them, for I am a man without a country and do the best I can for the country that I adopted and fought for. I have an invention that will kill by lightning four miles in the clouds, and as I was not adopted by Uncle Sam, I adopted his country. That is all the same in Dutch.

## TESTED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"Tess and Ted" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have built up our business by selling honest leather shoes.

Cut up a pair of "Tess and Ted" or any other "Star Brand" shoes and you will find that they have sole-leather heels, soles and counters. No substitutes for leather are ever used. See No. 2130—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud. We heartily endorse it. The rights of 100 million consumers are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes and over 200 other styles of "Star Brand" shoes are for sale by 20,000 good merchants. Don't just go into ANY store and ask for them, but come direct to our store. We are specializing on these famous shoes.

The name on the sole and the "Star" on the heel insures honest values.

The arrangement we have made with this pottery enables us to keep the Pattern in open stock and as an advertisement to place a handsome dinner set in every home in this vicinity.

The quality of this ware is first-class in every particular, the utmost care being taken in its manufacture, and it will not break or chip as easily as most ware does, and is guaranteed against crazing. The decorations are burned into the glaze, thus making them permanent.

The distribution of these handsome dinner sets will not effect our prices in any department. All goods you buy from us will represent the most and best that your money can buy elsewhere.

We are giving you an opportunity to secure a complete DINNER SET as an advertisement to increase our business and to show in a substantial way that we appreciate your trade.

We accordingly extend you a special invitation to call at our store and inspect these beautiful dishes. It will be to your advantage to call at once so we can explain to you our plan in detail.

## HUSBAND RESCUED DESPAIRING WIFE

**After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.**

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

## SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleaned and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound is on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason and they use it not only on fine animals but on human flesh as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00. James F. Ballard, Prop., St. Louis, Mo. Stephens Eye Salve is a healing ointment for sore eyes.

Quite an excitement prevailed in old Castroville Tuesday and Wednesday owing to the horse races. The first race pulled off Tuesday morning was A. M. Christilles' horse, "Dynamite", against F. Sutherland's grey, and was won by Dynamite. In the afternoon, "Yaller Gal" of Devine claimed victory over Nic. Haby's horse, "Silver-tail". Several minor races were also pulled off, of which we failed to secure definite particulars. The main race, MacMickie's "Mamie C" against Bill Knox's filly, came off Wednesday afternoon. The same terminated in a tie. Crowds from far and near were present.

The dances given at Wernette's opera house and Empire opera house both nights were not as largely attended as usual but were much enjoyed just the same.

Alois Haby and little sons of Red Wing were Hondo visitors Tuesday.

## SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' Today I am perfectly healthy, and that is why I recommend 'Vinol.'"

Vinol soothes and heals the inflamed surfaces and allays the cough, Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. W. H. Windrow, Druggist, Hondo.

## Hair Doesn't Die—It Has To Be Killed.

Hair often continues to live and grow long after the death of the body. But it is often killed through neglect or misuse. Almost always the woman or man whose hair is falling out, or is stringy, lifeless and dull-looking, is entirely to blame because of not giving it the proper care. It is easy to take care of the hair—easy to make it more beautiful. Use Harmony Hair Beautifier, to make it glossy, soft and silky, and Harmony Shampoo to keep hair and scalp thoroughly clean.

Harmony Hair Beautifier, delightfully perfumed with true rose, is very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair nor darken gray hair.

To keep your hair and scalp dandruff free and clean, use Harmony Shampoo. This pure liquid shampoo is most convenient to use, giving an instantaneous rich, foaming lather that immediately penetrates to every part of the hair and scalp, insuring a quick and thorough cleansing. It is washed off just as quickly, the entire operation taking only a few moments. Contains nothing that can harm the hair, and leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet preparations are made. Martin Drug Co., Hondo, Texas.

Most girls would rather pound a piano in the parlor than pound a beef-steak in the kitchen.

They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines, of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good." Just try them, 50c, and \$1.00 at all druggists or by mail.

## AGRICULTURAL EXHIBIT

INDUSTRIAL AND AGRICULTURAL EXHIBITS AT NO-TSU-OH THIS YEAR GREAT FEATURES.

## A DISPLAY OF GREAT MAGNITUDE

Large Industrial Concerns Have Taken Great Interest in Displays to Be Made—Agricultural Machinery, Etc.

The agricultural and industrial features of the No-Tsu-Oh celebration to be held in Houston, November 10 to 15, will be an enlargement over these features of former years.

The directors of the association have seen that there was room for enlargement. They believe, the commercial, financial and industrial interests of Houston have seen, and the rapidly increasing farming class adjacent to Houston have seen that this is a feature that was not being given proper attention.

The thousands who attend the No-Tsu-Oh celebrations each year enjoy the fun and the frolic. They attend to be entertained. It is their week of recreation as the guests of the people of Houston with whom they trade during the year.

But they want something substantial—something educational as well as something entertaining.

This feeling has been growing for the past several years. Last spring the live wires of Houston launched a permanent fair and exposition enterprise. They secured a large tract of land skirting the western edge of the city, and they have plans for the erection of handsome and costly structures.

It is a huge undertaking, is the launching of an exposition of such magnitude as is proposed, and those in charge of the work are not going off "half-cocked." They are going over the ground carefully, analyzing the proposition from every angle, and slowly mapping out something that will be something.

It was too late to do anything in the way of improving the grounds this year. However, it was decided that there should be an agricultural and industrial exhibit, and men were put in charge of that work.

This, it was proposed, should form the nucleus of the exhibit for the coming years. It was not the expectation that anything large could be accomplished for this year. But the men in charge of this work have met with success beyond their most sanguine expectations.

There will be a great many exhibits from the various counties surrounding Houston, and extending from the Brownsville Valley up through the eastern timber-peach belt and up into the black waxy cotton belt.

There will be exhibits from large industrial concerns in every line, and it is hoped that there will be an exhibit of agricultural machinery that will be worth going a long way to see.

City folks have come to realize that the present day farmer is an up-to-date man. He is an educated man, and one who keeps in close touch with all the latest things that make for the betterment of agricultural life, both the home end and the work end—both the expenditure end and the productive end.

In fact, those city fellows have come to learn that the farmer man of today is not the rube he used to be pictured—not the fellow to be frightened by town-folks, nor entertained by pretty red signs along the fronts of buildings.

One of the comic weeklies published a joke recently at the expense of a hapless New Yorker. This man had gone to the country to visit his uncle. He was riding along the road out to the uncle's farm in an old out-of-date spring wagon. He began to regale the driver with stories of New York, and told him that he was going out to "jolly" his uncle for the sport of the thing.

"But perhaps you know my uncle. He is so-and-so."

Just then a huge touring car flew by and filled the road with dust and gasoline scent.

"Oh, yes, I know him," replied the driver. "That was him in that machine that just passed. He has just returned from a four months' trip to Europe."

Anyhow, that's how it goes with the farmer man of today. He is not a rube, and the city fellow has come to learn that. He now knows that the farmer man is a business man, that he does things in a business way.

They know that the farmer is not to be "jollied" any longer. He likes his fun. He is glad of the opportunity to visit Houston and spend No-Tsu-Oh week. He can enter just as heartily into the spirit of the thing as the most staid among them. But he wants something substantial as well.

And those fellows in Houston are exerting themselves to give him just what will please him—what will entertain him, and what will aid in educating him.

### Dog Had Appetite for Chicken.

A chicken-stealing dog, in the Dumbarton (Scotland) district, recently occasioned some anxiety to a number of hen keepers. On a thorough search being made a number of fowls were recovered buried in a field. Some fowls were eaten, and those not required for immediate use were hidden. It was discovered that the cause of the trouble was a large black Labrador dog, which has been roaming the district at will for several weeks.

## SAFER THAN CALOMEL

Dodson's Liver Tone at Night Will Straighten You Out by Morning. Calomel May Knock You Out of a Day's Work.

If you are a calomel user, next time you are tempted to buy it ask your druggist if he can absolutely guarantee the drug not to harm you. He won't do it because he CAN'T do it.

But here is a perfect substitute for calomel which the druggist does guarantee—the famous Dodson's Liver Tone. W. H. Windrow will refund your money without question if you are not thoroughly satisfied.

Go to W. H. Windrow whom you are acquainted with—and find out about the great number of people who are taking this remarkable remedy and feeling better, keener, healthier, and better able to enjoy life than they ever were when taking calomel.

Why? Because calomel is a poison—one that may stay in the system, and while seeming to benefit you temporarily, may do harm in the end. If you haven't felt these ill-effects so far, it is because you are fortunate enough to have a strong constitution. Don't take the risk any longer. Get a bottle of Dodson's Liver Tone (50c.) and note how easily and naturally it corrects all bilious conditions, how it clears away that sick headache and coated tongue, how it sets you right without ache or gripe. The most wonderful thing in the world for constipation.

All this without the slightest interference with your regular habits.

## KING COTTON WILL SIT ON HIS THRONE AT THE TEXAS COTTON PALACE.

The Fleecy Staple Shown in All Forms From Planting to Making Cloth.

Cotton shown in all its forms from the plant to cloth will be one of the leading educational features of the Cotton Palace at Waco opening November 1st and closing November 16th.

All the subjects of King Cotton will assemble at the Palace. The by-products of both lint and seed will sit around the throne in the order of their importance and the manufacturing processes will be demonstrated in important instances. It is here all subjects will give an annual account to their king and the record will be one of glorious conquest and achievement. By visiting the throne room of King Cotton, one will be convinced that the half has never been told.

In the production of cotton per capita we excel any other country on the globe, and without our cotton the world would go naked and shiver with cold. Civilization has assigned to Texas the monumental task of clothing 300,000,000 people. To perform this gigantic mission, a half million plows must turn 12,000,000 acres of fertile soil per annum and over 2,000,000 people cultivate myriads of plants whose tiny looms weave from earth and air a fleecy staple that runs 4,600 gins, operates 113 compresses, runs 194 oil mills that crush 2,000,000 tons of seed, runs 30,000,000 spindles and fills the counters of two hemispheres with the most serviceable garment the world has ever known. The story of the growth, utility and power of the world's greatest industry will be presented in a most convincing and unforgettable manner.

The whir of the machinery as it takes the fibre from the boll and transforms it into a beautiful garment for the wardrobe of mankind, is one of the most instructive and important lessons in Twentieth century civilization.

The turning of cottonseed from waste into profit is the most wonderful industrial achievement of the age. The seed, considered worthless a quarter of a century ago, now brings the Texas farmer \$40,000,000 per annum. The by-products of this marvelous seed are legion and they will be on exhibition at the Palace, each telling a simple story of usefulness and power.

### Loose Screw.

Very often a screw hole gets worn so that the screw will not stay in. To remedy this cut some narrow strips of cork and fill up the hole completely, and then force the screw in. This will prove just as tight as if driven into a new hole.

## A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, removing gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, 2925 Olive street, St. Louis, Mo. Send for Texas testimonials. Sold by druggists.

## OUR JOBBING INTERESTS

Texans Consume \$300,000,000 Dry Goods Annually.

The Jobber, Salesman of Industry and Forerunner of Factories.

We can never hope to become a manufacturing country or to acquire power in commerce and trade until we first build up our wholesale and jobbing interests. The jobber is the salesman of industry, the servant of the factory, the standard-bearer of prosperity and the authorized medium of co-operation between the producer and the consumer in economic distribution of merchandise and in empire building.

The people of Texas consume annually approximately \$300,000,000 worth of dry goods and notions, and only a small fraction of the purchases are made through Texas jobbers and manufacturers. No country can advance far in industrial progress until it patronizes home institutions; no community can become powerful in trade and remain indifferent to its local industries. Patronizing home industries is as essential to our commercial success as patriotism is necessary in government, and those who do not do so fail to discharge a debt inherited from civilization and lose an opportunity of making a living contribution to the progress of the country.

The patronizing of our jobbing houses would call for an immediate increase in investments in that industry of approximately \$50,000,000, give direct employment to 100,000 people, bring within our borders ten thousand factories affording employment to a half million people, provide a home market for our farm products, give us control of our own business affairs, make us independent of, instead of dependent upon, our foreign neighbors and multiply the opportunities of every citizen.

There is not a town, village or hamlet in this State that would not become the logical location for one or more of these factories, and yet this natural heritage is withheld from them through lack of co-operation among the buying interests of Texas.

### Antiquities in Danger.

Hidden away in the national museums and libraries, and carefully guarded are a number of priceless manuscripts and books which, but for a fortunate chance, might have been lost to the world. The chief treasure of a museum at St. Petersburg, the oldest known Greek manuscript of the New Testament, which was to be burned by the monks of a Syrian monastery, when, by a chance, one of the priests, struck by the antiquity of the manuscript, interfered in time to save what has been thought valueless.

### Altogether Too Strenuous.
